

What is diversity?

Ground Rules

Respect

Listening

Confidentiality

Learning Objective:

To learn about the importance of diversity and celebrating difference.

Learning Outcomes:

I can...

...identify how we are the same in some ways and different in others.

...recognise diversity in my community.

...describe the groups I am a part of.

...celebrate difference!

Anything
else?

Where do our differences come from?

Cultures

Genes

Life experiences

Origins

Religion

Parental influence

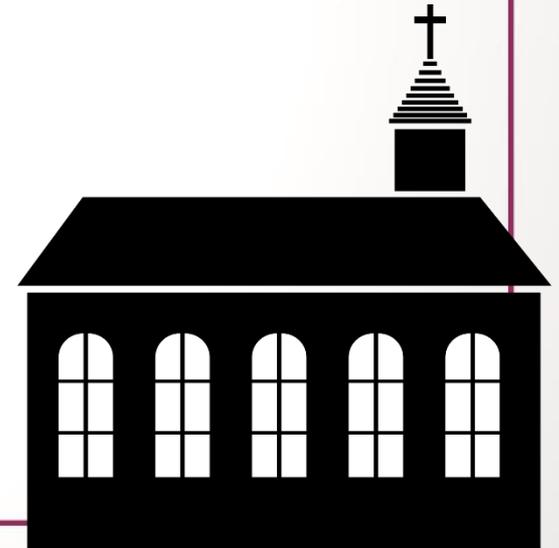

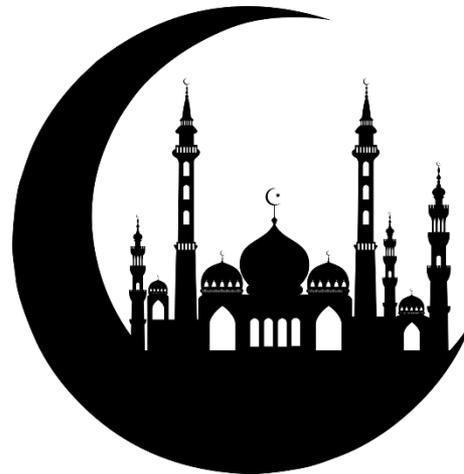

Lots of people in this country originally came from other countries – or their ancestors did, and this can often mean that we can share new ideas and find out things about other places, beliefs and customs.

This is ***diversity*** and it makes life more interesting!

Our Manchester

Manchester is a very diverse city! We look different to each other, we like different things and we have different beliefs...

Religion

Deepak

Sohail

Deepak and Sohail are best friends.

Deepak is Hindu and Sohail is Muslim. They love to learn about each other's religions.

Do you have any friends that follow a different religion from your own (if you have one!)?

Families

Linh

Everyone's family looks different.

Linh lives with her two sisters and grandparents. Sam lives with his two dads. Hope lives with her adopted parents. What does your family look like?

Hope

Sam

Country of Birth

Linh and her family come from China. Hope's parents come from Nigeria. Sam's dads are from Poland.

Where were you born? What country does your family come from?

Relationships

Sam's dads love each other, they are in a same-sex relationship and are married.

Manchester is a city with people in relationships of all kinds – that makes us diverse!

Hope's parents love each other and are in a relationship but they are not married.

What groups am I a part of?

Discrimination

If someone is unkind to you because of how you look, what you like or how you speak, that is bullying.

This type of bullying because of differences is called discrimination.

If you thought someone was being bullied because they were different at school, what would you do?
